Quality is not a game!

Quality Development Innovation Aesthetics

Solutions, which have become the new benchmark
for specific quality standards

Outstanding quality

Certification and international recognition at international level

Research & Development

Currently, 4 % of turnover is invested in Research

A Research & Development Department
with more than 30 pax.

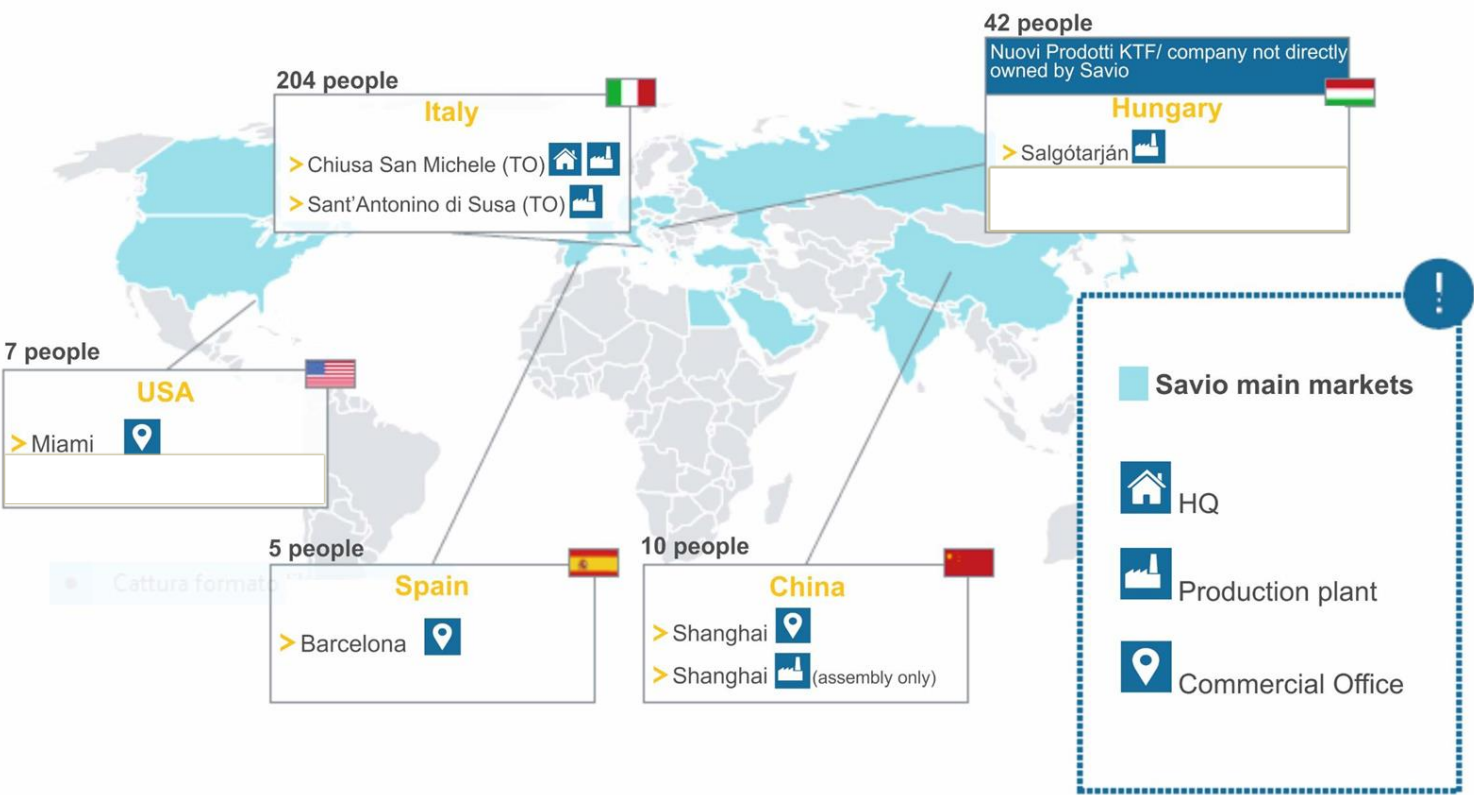

The continuous Research and Development
of new solutions, leads Savio
to the current leadership on the market.

More than 150 worldwide patented products

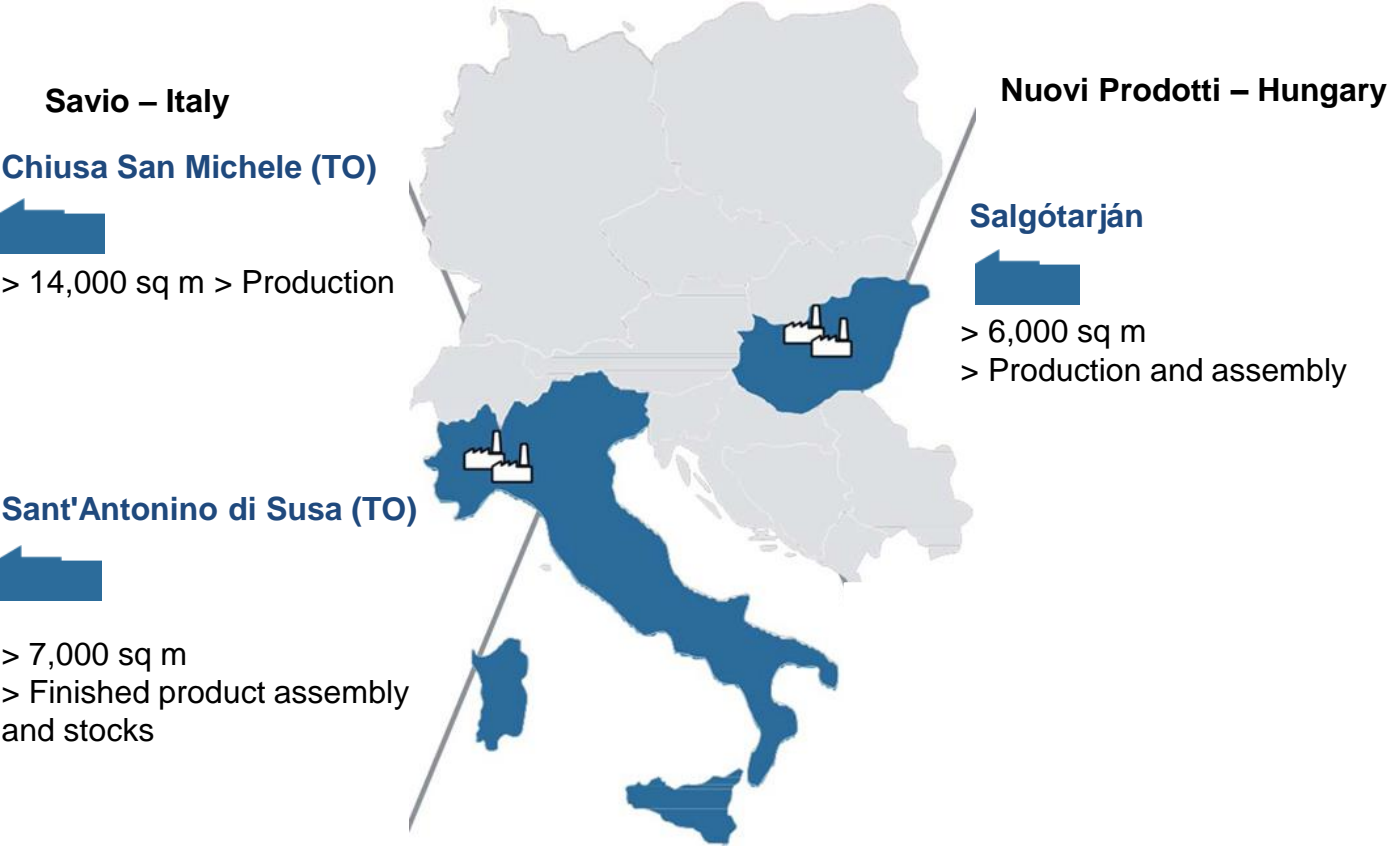

Savio worldwide partners

Savio in the world

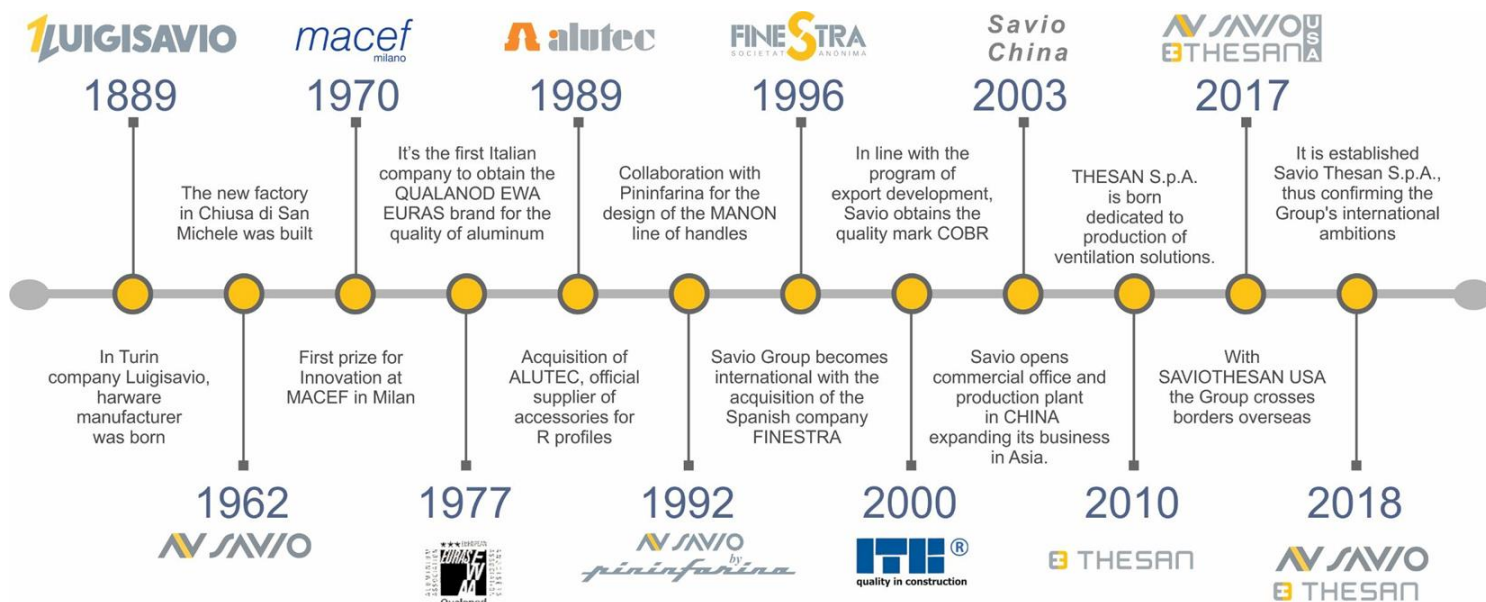

Production footprint

Savio production is split between the production facilities in Italy and Hungary owned by the company Nuovi Prodotti

Company timeline - Innovation

Year 1977 :

First tilt & turn system with 11 Patents

Nowadays 5 different tilt & turn solutions up to 180kg for all market needs

Year 2000:

MECHANICA HINGE

Tested up to 1,000,000 cycles

Burglar proof certified

Year 2003 - Today:

Savio by Pininfarina:

Bernini panic device

the first in its category

tested up to 2,000,000 cycles

Additional four more different panic device models also available Fire Rated

Innovation

Year 2017:

THE ERA OF DOOR CLOSERS IS OVER.
NOW IS THE ERA OF **SAVIO REKLO'**

The new hinge with built-in door closer
The first TÜV and CE certified in its category
In class Force 3 up to 120kg weight
500.000cycles durability
Classification EN1154

category of use	durability	force	fire resistance	safety in use	corrosion resistance
3	8	3	0	1	4

Design

Performance & Beauty combined together

SAVIO
by
pininfarina

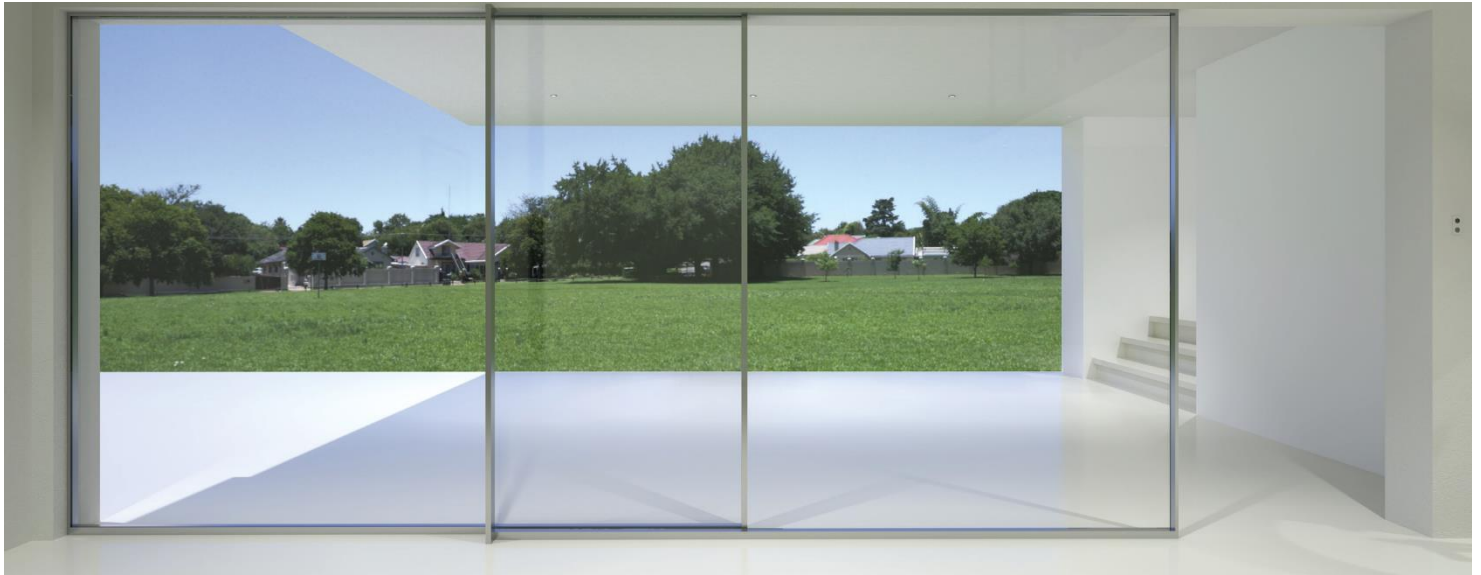

Sensible to **Made in Italy** design,
Savio works always with the most prestigious world designers
as **Pininfarina**, the Excellence in this design sector.

NO RAIL - NO LIMIT

The revolutionary system SAVIO ROLLUP and MAGLEV
No threshold – no rails:

Pulleys on the top up to 400kg per sash

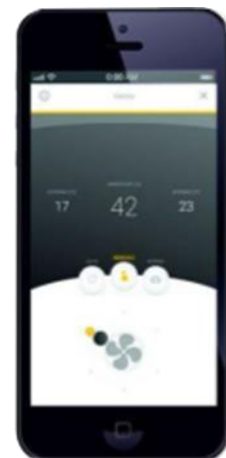

Magnets movement on the top up to 1000 Kg per sash

- No architectural barriers
- Zero threshold
- Great aesthetics impact
- Functional for residential and public “Intensive Use”
- Greater brightness
- Super easy opening
- Manual and automatic
- Compact and modular
- No dust collection
- Unique performance for its range
- Perfectly integrable with facade

AIRCARE: VMC solution for good Indoor Air Quality

Foreseeing the market trend in 2010, Savio began to study how to renew indoor air, launching in 2015 its line of THESAN products

- Maximum suitability
- High filtration HEPA H13 (up to 99,95% of PM)
- Maximum efficiency in air exchange
- Energy saving 82% thermal efficiency
- Compatible with domotics systems (Aircare app)

Aircare VMC single room range, includes the following systems:

- Heat recovery + air filtration
- Air filtration
- Air extractor
